## Mini R53 Vent Install

**1** With a micro size flat head screw driver release the clip on the left side of the vent housing. It will slide out of it's housing slightly.

**2** Release the clip on the right side of the vent housing.

**3** Release one side of the inner vent housing from the outer vent housing.

**4** Removed the inner vent housing from the outer vent housing.

### WARRANTY & LIABILITY:

Neither P3 Cars, nor its dealers or agents shall be liable in any way, for any damage, loss, injury or other claims, resulting from the installation or use of this product. By purchasing or installing this product, you assume all liability of any kind connected with the use and/or application of this product. If you are unsure that you can safely install and use this product, consult a qualified installer or mechanic. The warranty on this product covers only the product itself for a period of 6 months from the date of purchase, and it will be at our discretion to repair or replace the affected parts. No user serviceable parts inside. Warranty will be voided if product shows physical damage.

**5** Gently move the face of the gauge past the soft inner foam. Be careful to not mar the finish.

**6** Once past the foam insert the side clip into the retainer clip in the side of the vent housing wall.

**7** Insert the other side clip into the retainer clip in the side of the vent housing wall.

**8** Make sure they are all the way seated and that the gauge face is flush and in front of the foam all the way around.

**9** Now you are ready to install your vent housing back in the dash of your mini with the P3Cars VIDI ready to go to.
